

Stride Tutoring

A Scalable Approach for School Districts

The 2022 Nation's Report Card study results show the largest decline in learning in two decades. Learning loss is estimated at half a year for math and a quarter year for reading since 2019.[1] Among 8th graders, only 27 percent achieved proficiency in math and 31 percent in reading.[2]

More than ever, tutoring is needed to help learners nationwide to get back on track - and rapidly. Stride Tutoring is uniquely positioned to help.

High Dosage Tutoring Can Help

The research is clear: Students can make up three-to-fifteen months of learning with effective tutoring.[3] High-dosage tutoring, in which a qualified tutor works intensively with up to four students three times a week for a year, is proven to be the most effective intervention for overcoming learning loss, resulting in learning equivalent to 19 weeks of instruction.[4]

The Help Students Need. The Personalization They Seek.

Accelerate learning with personalized, high-dosage tutoring that can help students gain the academic knowledge, skills, and confidence needed to meet their learning goals. All tutors are state-certified teachers trained to deliver high-quality 1:1 and small group tutoring at an affordable price for districts.

Real Teachers. Real Results.

Why Choose Stride Tutoring?

- ✓ Certified teachers
- ✓ Recover gaps quickly
- ✓ Provide scaffolded support
- ✓ Accelerate learning

How It Works

- ✓ The classroom teacher identifies and assigns tutors through a portal.
- ✓ Tutoring is virtual and synchronous.
- ✓ The classroom teacher and tutor can share resources, communicate, and monitor progress through the portal.
