K12 Learning Solutions

Career Explorations

Career and College Prep with K12 is a modern virtual career readiness program designed to prepare future-ready students.

Prepare Your Students for the Future

Help your students look beyond their zip code—and into the future —with an engaging, project-based curriculum that explores a global job market with an emphasis on digital skills and in-demand jobs. A site license unlocks access to cross-curricular career learning for all students in a building.

Explore 6 High-Demand Career Clusters:

- Information Technology
- Healthcare
- Business & Marketing
- Manufacturing
- Agriculture
- Arts AV Tech Communication

Newsela

Tools to transform lives

Career Awareness Courses
Help students explore career options that match their interests, build in-demand skills, and plan for the future with courses from Roadtrip Nation, Newsela, and TALLO.

Career Explorations Courses
Empower students to dive deeper into an explorations course covering one of six in-demand career clusters.

Teacher Tools
Easily manage assignments, grades, and student groups; create quizzes, class announcements, and discussion forums; and monitor student engagement and course progress.

Professional Learning
Asynchronous workshops guide educators through proven instructional strategies for project-based learning.

Training and Support
Upgrade your service with a dedicated program consultant for ongoing 1:1 coaching. Feel supported every step of the way with additional training on our platform, systems, and tools.

Remote K12 Teachers
Need instructional support? If your district does not have the teaching staff to support this program, K12 provides certified teachers trained in teaching online for an additional fee.

Why project-based learning?
Transform teaching and learning and provide real-world work experiences through project-based learning (PBL) designed with cross-curricular applications. In our engaging PBL courses, students immerse themselves in individual and team projects like those in the world of work they'll encounter.
