

## Kindergarten Prep

**Jump-start your youngest learners' futures and build long-term school district enrollment earlier.**

## Inspiring Young Learners

Ignite the passion in your youngest learners with Kindergarten Prep, an online pre-K program designed to inspire and engage children through direct experience, interactive media, and a variety of multisensory activities such as language arts, mathematics, science, social studies, art, and music.

## Top Reasons District Leaders Love **Kindergarten Prep**

- 01 Comprehensive Curriculum:** The program includes 18 thematic units with instructional activities in six subjects: language arts, mathematics, science, social studies, art, and music.
- 02 Joyful Learning:** Learners are inspired through direct experiences, interactive media, and a variety of multisensory activities guided by a teacher or Learning Coach.
- 03 Designed for Growth:** Kindergarten Prep is designed to foster intellectual and social-emotional growth through developmentally appropriate content and learning modalities. Learning progress is measured through integrated assessments, and growth is tracked and reported.
- 04 Cost-Effective:** School districts may be able to use state funding mechanisms to purchase the curriculum. Program courses and materials may also be purchased individually. Instructional services are available at an additional charge per student.
