

**Re-engage students.  
Increase enrollments.**

**Give your school district a powerful edge with a dynamic learning culture designed to position students for lifelong success.**

**Bring students back to public school with a modern virtual learning program.**

Since the pandemic, many families have left public school for virtual and homeschool environments that better meet their needs. K12 Learning Solutions partners with school districts to include full-time virtual options that will restore confidence among families that have left, so they re-engage and re-enroll.

# Recruit. Engage. Educate.

K12 Learning Solutions leverages its robust and high-touch enrollment services team to recruit, engage, and educate students within your school district at zero risk to you. Increased enrollment brings increased funding, and districts only pay when they re-enroll students.

## Benefits to the District

- ✓ Bring students and funding back to the district
- ✓ Bolster your district as a premier choice for families
- ✓ Offer a full-time virtual school option
- ✓ Enhance your suite of curricular and instructional offerings

## How We Can Help

- ✓ Outreach and marketing to re-engage families
- ✓ Student enrollment services
- ✓ Full-time virtual school
- ✓ Professional development
- ✓ State reporting
